The Diocesan Health Facilities system is pleased to announce that each of its skilled nursing and rehabilitation centers is now set up for Wi-Fi. This enables residents and their families to send and receive email or to access the internet while at any of our locations.

Now residents and visitors will be able to use lap top computers, tablets, and smart phones to communicate with loved ones, catch up on news and entertainment, or to use Skype, technology that allows them to visit face to face with families and friends. Wi-Fi will also be an asset for therapeutic activities departments and allows for new ways to involve residents in activities.

The addition of Wi-Fi is also a great feature for short-term rehabilitation residents during their stays, and offers them options in staying connected while receiving rehab care before their return home.

The Diocesan Health Facilities system includes the following skilled nursing and rehabilitation centers: Catholic Memorial Home, Fall River; Madonna Manor, North Attleboro; Marian Manor, Taunton; Our Lady's Haven, Fairhaven; and Sacred Heart Home, New Bedford.
